The Best Buy employees to police that I then took the best buy merchandise and left out the Store. Looking back Laughing as I entered my vehicle and pulled out the parking Lot. The Video clearly shows me never making any purchase from Best Buy, the video also shows me never coming into contact with the card nor do the video show me rushing out the store. The video clearly shows a caucasian female with me making purchases and using a card to pay for her items. The video also show best buy employees never bothering her either.
